# ACG to Skills: Practice Exam Crosswalk

An overview of the current practice exams on A Cloud Guru, what content is not migrating, and comparable practice exams available on Pluralsight.

As we unify the Pluralsight and A Cloud Guru content libraries, we evaluated all practice exams to retain the freshest, most relevant assessments – this includes leaving behind redundant and retired exams from ACG. For some ACG exams, you will notice a many-to-one replacement option; this is because ACG displayed different versions of the same exam. The PS replacements are offered as one exam that you may retake multiple times, with randomized questions in each attempt. The majority of practice exams on PS are offered through Cybervista and are denoted with an asterisk below. If you're a current ACG customer, you can continue to access the below ACG exams until you migrate. PS exams are discoverable through Search and Browse, as well as within select certification paths. If you have any questions, please contact your account team.

ACG Practice Exam	Replacement Practice Exam	Practice Exam URL
