

Know who's ready with Skill IQ Suite

Skills intelligence that tells leaders who's ready and where to invest next for faster, more informed decision-making.

What is Skill IQ Suite?

Skill IQ Suite is your full skills intelligence offering, with distinct, purpose-built assessments that take a learner from "where do I stand?" to "I can prove I can do the job." Match the tool to the decision and the answer you get back is one you can act on.

Skill IQ Discovery

Comparative wayfinding assessment

Skill IQ Discovery provides a relative measure of a topic by quickly comparing a learner's performance against a broad population. This timed, multiple-choice assessment is best suited for established, widely adopted technologies where knowledge can be meaningfully ranked.

Skill IQ Prep

Certification preparation

Skill IQ Prep delivers certification-focused exams designed to align to industry standards, helping learners prepare for and build confidence for high-stakes certifications. This assessment gives them realistic practice that can help show where to focus.

Skill IQ Verified

Standards-based proficiency assessment

Skill IQ Verified confirms whether a learner meets a defined proficiency standard, not just how they compare to peers. The result is a clear Pass or Not Pass outcome that leaders can use to confirm skill readiness with confidence.

Skills intelligence in action

For learners:

- Pinpoint skill gaps with precision and follow a personalized path to close them.
- Walk into exam day with confidence.
- Get a clear, objective outcome that signals real job readiness.

For leaders:

- See team skill distribution at scale and prioritize training investment accordingly.
- Help turn certification goals into higher pass rates and stronger ROI.
- Standardize proficiency expectations and assess readiness with confidence.

The right assessment for every decision
