

Exercise files

Tags: **Skills**

Exercise files are materials the course author includes to allow you to follow along with the course. Exercise files may include .pdf slides for the course, instructor notes, source code, and other helpful resources.

Most video courses have exercise files, but the content varies by topic and by what the instructor feels is necessary for the course.

Downloading exercise files

To download exercise files:

1. Click a course that interests you in the course library.
2. Click the **Exercise files** tab.
3. Download and extract the zip file.

Troubleshooting issues with exercise files

If you don't see exercise files in the course, confirm that you have an active subscription on your [Subscription & Billing page \(opens in new tab\)](#).

If you have an active subscription and don't see exercise files in the course, email us at support@pluralsight.com and include the name of the course that doesn't have exercise files.

If the exercise files you downloaded aren't working, check that you're using the software and configuration that matches those the course uses.

If you're following along with the course and running into errors, email us at support@pluralsight.com and include the name of the course with errors in the exercise files.

If you need help, please email support@pluralsight.com for 24/7 assistance.
