

## How many licenses should I purchase for my plan?

Tags: **Skills**

Each learner needs their own license to watch content on the Pluralsight Skills platform. All team plan licensing is license-per-learner, and we do not offer concurrent licensing. Our plans are priced accordingly, whether your organization needs two licenses or more than 1,000. For example, if you have five people on your team, you'll need five licenses.

<u>Admins:</u>			✓	✓	✓

Team managers and plan admins do not need a license to manage their team, but without a license, they can't watch content.

If a learner leaves your team, you can remove their license. See our articles on [removing a learner's license](#) or [removing a manager or admin's license](#). The number of times you can transfer a license is subject to your organization's agreement with Pluralsight. If you have questions about this, refer to our [Terms of Use \(opens in new tab\)](#) and get in touch with your [Pluralsight contact](#).

Accounts are personal to the learner using them and cannot be shared or reused. A learner who already has an account can be invited to your team plan, and their viewing history will be carried over to the plan.
