Paying for your subscription

You can pay for an individual subscription with PayPal or with a credit or debit card backed by Visa, MasterCard, American Express, and Discover. We do not accept checks from individuals.

Important: American Express is only available for USD payments.

You'll automatically be prompted to pay with USD (United States Dollar), EUR (Euro), GBP (British Pound), or INR (Indian Rupees). Depending on the location your billing information reflects, we charge tax on your subscription. This varies by county, state, and country, so please see your receipt on your invoice page. You can view your invoices on the [payment history page \(opens in new tab\)](#).

Renewing your subscription

If you have a monthly subscription, your subscription will renew each month on the day of the month you signed up, unless it's a month in which that date doesn't exist. In that case, it would renew on the last day of that month. For example, if you signed up on March 31st, your subscription would renew on April 30th.

If you have an annual subscription, your subscription will renew each year on the date you signed up. Annual subscriptions signed up on February 29 of a leap year will renew on February 28 on non-leap years.

If you don't want your subscription to automatically renew, be sure to cancel your subscription before the renewal date. This allows you to continue using your subscription until the expiration date, but prevents your subscription from auto-renewing.

While **we don't offer refunds for Skills subscriptions**, you can [cancel your subscription at any time](#). After canceling your subscription, you'll still be able to access your course content through the end of your paid term.
