

# Profile

Tags: **Skills**

Your [profile \(opens in new tab\)](#) highlights your usage, accomplishments, and activity on Pluralsight Skills. From your profile, see insights about your learning, set learning goals, connect social media profiles, add interests, and set an avatar. You can also see Skill IQ assessments you've taken, courses you're currently learning, and courses you've completed.

To view your profile from the home page, click your name or avatar on the profile widget. To access your profile anytime, click your avatar in the top right corner and then click **Profile** from the dropdown menu.

## Profile privacy

For many, learning on Pluralsight can be a valuable community-building activity. At the same time, we understand the value of privacy. Use privacy controls to choose whether you want your profile to be a showcase for your achievements or a private record of your learning progress.

**Note:** If you're on a team plan, your admin or team manager can view your learning activity and course history, even if your profile is private.

To set your privacy settings:

1. Go to your [profile \(opens in new tab\)](#).
2. Click **Edit profile** or click your avatar.
3. Scroll down to the **Profile privacy** section.

4. Choose **Private** or **Public** from the dropdown menu.
  - a. If you choose to make your profile public, you can modify each section's visibility on your profile. Click the **globe icon** next to a section's name to make that section public, or click the padlock icon to make the section private.
5. Click **Save changes**.

**Tip:** On your [profile \(opens in new tab\)](#), use the **eye icon** next to each section of your profile to make that section private or public. Click **View as public** to see how your profile appears to public viewers.

Looking for how to change your email notification settings? You can modify these on your [Communication preferences page \(opens in new tab\)](#). See [Changing your communication preferences](#) for more information.

## Personalize your profile

### Add your avatar

Use Gravatar to host your profile icon. If you have a WordPress account, you already have a Gravatar account.

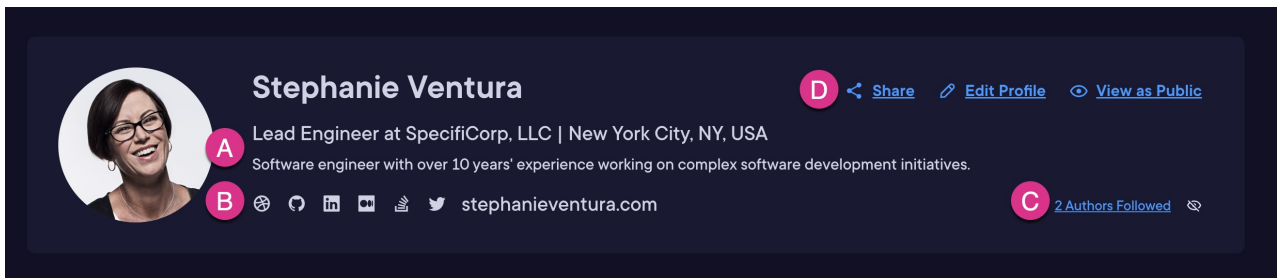

To add an avatar to your profile:

1. Go to your [profile \(opens in new tab\)](#).
2. Click **Edit profile** or click your current avatar.
3. Click **Update Gravatar image**. This directs you to [Gravatar's website \(external site, opens in new tab\)](#).
4. If you already have a Gravatar account, log in with WordPress.
  - If your WordPress email is the same as your primary Pluralsight email, choose an existing picture or add a new image and confirm your choice.
  - If your WordPress email is different from your primary Pluralsight email, add your primary Pluralsight email to your Gravatar account before setting a profile image. You must verify your email to complete this step.
5. If you don't have a Gravatar account, create a free WordPress account using your primary email address and upload a profile picture.

Find additional help on the [Gravatar help page \(external site, opens in new tab\)](#).

**Note:** It may take up to a day for your updated Gravatar to appear on your Pluralsight profile.

### Additional personalization to your profile

A. **Add personal info.** Click **Edit profile** to optionally add your job title, company name, location, personal website, and a short bio.

**Tip:** Edit your name from your [Account settings \(opens in new tab\)](#).

B. **Add social profiles.** Click **Edit profile** to link accounts like Github and LinkedIn to your profile.

C. **View and edit authors you follow.** If you've followed any course authors, see a link to a list of these authors at the top of your profile.

**Tip:** To follow an author, click their name on the course details page of one of their courses and click **Follow**. You receive an email notification when an author you follow publishes a new course, unless you turn off these emails in your [communication preferences \(opens in new tab\)](#).

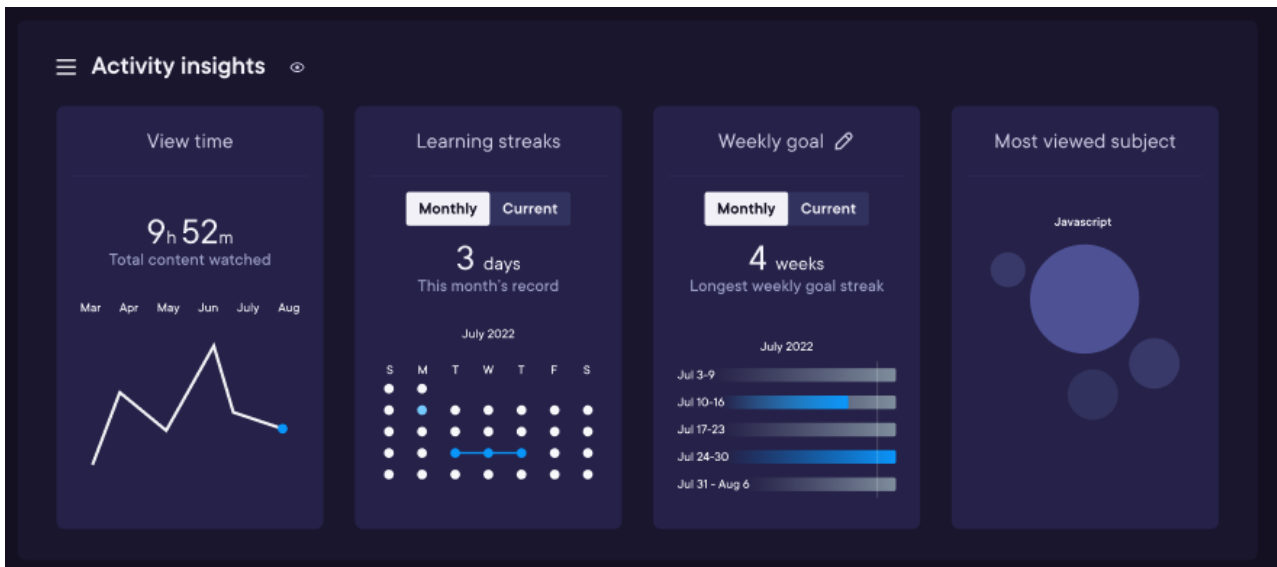

D. **Share your profile.** Click **Share** to share your profile to your favorite social media platform or copy a shareable link. If your profile is set to private, you'll be prompted to make your profile public first. You can modify your profile's privacy in more detail in your [privacy settings](#).

## See your activity insights

Your profile provides insights into several different areas of your Skills learning activities, including:

- **View time:** Displays view time for Skills video courses only. Any course progress on mobile or desktop apps will be added to your view time once you [sync the app](#).
- **Learning streaks:** Tracks consecutive days of learning activity.
- **Weekly goal:** Monitors your weekly progress toward a learning goal.
- **Most viewed subjects:** Highlights the subjects you've engaged with most.

You'll also find areas to display your badges, Skill IQ progress, interests, courses you're currently learning, and completed courses.

**Tip:** Reorder profile sections to showcase the profile information you're most interested in seeing. Click the three bar icon next to a section's name and drag the section to where you want it on your profile.

[back to top](#)

## Add interests

The **Interests** section of your profile displays any interests you've selected. Click **Add interests** to choose the areas you want to focus on during your Skills learning journey. This helps us recommend the content most relevant to your interests.

### What do you want to learn today?

Add 2 or 3 of your current interests to personalize your experience.
