

How to use single sign-on (SSO) or device authorization to log in to the Pluralsight Android or iOS mobile app

Tags: [Skills \(https://pluralsight.knowledgeowl.com/help/search?phrase=:Skills\)](https://pluralsight.knowledgeowl.com/help/search?phrase=:Skills)

All users with a Pluralsight Skills account can log in to the Pluralsight mobile app using device authorization. If you're on a Skills team plan with single sign-on (SSO) enabled, you can log in with SSO.

	Who can use this?				
	<u>Std</u>	<u>Prem</u>	<u>Strt</u>	<u>Pro</u>	<u>Ent</u>
<u>Learners:</u>	✓	✓	✓	✓	✓
<u>Managers:</u>					
<u>Admins:</u>					

Logging in with single sign-on (SSO)

For users on a team plan who log in to Pluralsight through an SSO provider, follow these steps to log in to the Pluralsight mobile app.

To use SSO for Android:

1. Open the Pluralsight mobile app.
2. Tap **Sign in to start watching**.
3. Tap **Use Single Sign-On (SSO)**.
4. Enter your company URL and tap **Continue**.
 - a. If you are not currently logged in to your SSO provider, you will be redirected to your SSO provider and prompted to enter your credentials.

You are now successfully logged in to the Pluralsight mobile app.

To use SSO for iOS:

1. Open the Pluralsight mobile app.
2. Tap **Sign in**.
3. Tap **Use Single Sign-On (SSO)**.
4. Enter your company URL and tap **Continue**.

- a. If you are not currently logged in to your SSO provider, you will be redirected to your SSO provider and prompted to enter your credentials.

You are now successfully logged in to the Pluralsight mobile app.

Logging in with device authorization

Any active Skills user can use device authorization to make logging in to our mobile apps easier. After you authorize a device, you'll be able to log in without entering your username and password. If you change your password, you won't need to re-authenticate your device.

Important: Each device should only be authorized once. If you have a device that has been authorized multiple times, remove duplicate authorizations from your [Account page \(opens in new tab\)](#) (<https://app.pluralsight.com/id/devices#>).

To use device authorization for Android:

1. Open the Pluralsight mobile app.
2. Tap **Sign in to start watching**.
3. Tap **Use Single Sign-On (SSO)**.
4. Tap **Authorize your device with a code**.
5. Take note of the 6-digit code that appears, then go to your [Account devices page \(opens in new tab\)](#) (<https://app.pluralsight.com/id/Devices>) on a browser.
 - a. If you are not yet logged in to Pluralsight on the browser, log in with your credentials first.
6. On your Account page, enter the 6-digit code in the **Security code** field under **Authorized devices**. Each code expires after 15 minutes.

Your device has been authenticated.

Tip: To get to your Account page from the Pluralsight Skills home page, click your avatar in the top right corner, click **Account settings**, and click the **Devices** tab.

To use device authorization for iOS:

1. Open the Pluralsight mobile app.
2. Tap **Sign in**.
3. Tap **Use Single Sign-On (SSO)**.
4. Tap **Authorize your device with a code**.

5. Take note of the 6-digit code that appears, then go to your [Account devices page \(opens in new tab\)](https://app.pluralsight.com/id/Devices) (<https://app.pluralsight.com/id/Devices>) on a browser.
 - a. If you are not yet logged in to Pluralsight on the browser, log in with your credentials first.
6. On your Account page, enter the 6-digit code in the **Security code** field under **Authorized devices**. Each code expires after 15 minutes.

Your device has been authenticated.

Removing authorized devices

To remove a device from your authorized devices list:

1. Log in to Pluralsight Skills from your browser (not the mobile app).
2. Click your avatar in the top right corner, then click **Account settings**.
3. Click the **Devices** tab.
4. Click **Remove** next to the device you want to remove from your authorized devices list.
