

Using SSO or device authorization with the mobile app

Tags: **Skills**

Learners with a Pluralsight Skills account can use device authorization to log in to the Pluralsight mobile app. If you're on a Skills team plan with single sign-on (SSO) enabled, you can log in to the mobile app with SSO.

Logging in with single sign-on (SSO)

For users on a team plan who log in to Skills through an SSO provider, follow these steps to log in to the mobile app.

SSO for Android

1. Open the Pluralsight mobile app.
2. Tap **Sign in to start watching**.
3. Tap **Use Single Sign-On (SSO)**.
4. Enter your company URL and tap **Continue**.
 - a. If you aren't currently logged in to your SSO provider, you'll be redirected to your SSO provider and prompted to enter your credentials.

You've successfully logged in to the Pluralsight mobile app.

SSO for iOS

1. Open the Pluralsight mobile app.
2. Tap **Sign in**.

3. Tap **Use Single Sign-On (SSO)**.

4. Enter your company URL and tap **Continue**.

- a. If you aren't currently logged in to your SSO provider, you'll be redirected to your SSO provider and prompted to enter your credentials.

You've successfully logged in to the Pluralsight mobile app.

Logging in with device authorization

Any Skills learner can use device authorization to make logging in to our mobile apps easier. After you authorize a device, you'll be able to log in without entering your username and password. If you change your password, you won't need to re-authenticate your device.

Important: Each device should only be authorized once. For optimal app performance, remove any duplicate authorizations from your [Account page \(opens in new tab\)](#).

Device authorization for Android

1. Open the Pluralsight mobile app.
2. Tap **Sign in to start watching**.
3. Tap **Use Single Sign-On (SSO)**.
4. Tap **Authorize your device with a code**.
5. Take note of the 6-digit code that appears, then go to [pluralsight.com/auth \(opens in new tab\)](https://pluralsight.com/auth) on a browser. Each code expires after 15 minutes.
 - a. If you aren't logged in to Skills on the browser, log in with your credentials first.
6. On your [Account page \(opens in new tab\)](#) on the **Devices** tab, enter the 6-digit code in the **Security code** field, then click **Add device**.

Your device has been authenticated.

Tip: To get to your Account page from the Pluralsight Skills home page, click your avatar in the top right corner, click **Account settings**, and click the **Devices** tab.

Device authorization for iOS

1. Open the Pluralsight mobile app.
2. Tap **Sign in**.

3. Tap **Use Single Sign-On (SSO)**.
4. Tap **Authorize your device with a code**.
5. Take note of the 6-digit code that appears, then go to pluralsight.com/auth (opens in new tab) on a browser. Each code expires after 15 minutes.
 - a. If you aren't logged in to Skills on the browser, log in with your credentials first.
6. On your [Account page](#) (opens in new tab) on the **Devices** tab, enter the 6-digit code in the **Security code** field, then click **Add device**.

Your device has been authenticated.

Removing authorized devices

To remove a device from your authorized devices list:

1. Log in to Skills from your browser (not the mobile app).
2. Click your avatar in the top right corner, then click **Account settings**.
3. Click the **Devices** tab.
4. Click **Remove** next to the device you want to remove from your authorized devices list.
