Subscriptions available through Pluralsight One

Elevate and Amplify are special Pluralsight Skills subscriptions available through Pluralsight One. They're designed for eligible nonprofits and K-12 teams as well as the communities they support. These subscriptions take the power and access of our individual subscriptions and business plans and make them available to nonprofits and K-12 entities at a significant discount.

All Pluralsight One product offerings are available worldwide with the exception of sanctioned countries. Visit [Pluralsight One products](#) ([opens in new tab](#)) to see the details of each subscription level, eligibility requirements, and to purchase.
