

## Flow release: September 9, 2019

---

Tags: [Flow](#)

### Features/major changes

- **New API endpoints created to**
  - add and remove repos
  - import ticket projects
  - manage account users
- [Bulk import teams via CSV](#): Added functionality to set view rights to 'Inherit' in CSV upload file.
- **Project timeline**: Work trend defaults to % instead of LoC

### Resolved issues

- API: Fixed bug with membership\_type parameter in team\_membership endpoint
- GitLab subgroup images now available
- GitLab webhooks: Ticket "creation" re-assigned to the last commenting user
- Fundamentals: Added units for Reaction Time and Responsiveness
- Avatar image not updating for non administrative Users
- Open PR's: Fixed sort function
- Daily/Weekly Digest Emails showing excluded users
- Import teams modal requires scroll in order to see Import CSV button
- JIRA auto-import: Fixed issue causing projects with the same project URL from not importing if they are from a cloud and on-prem server respectively.

### Miscellaneous updates and fixes

- Adding users by email is case insensitive
- PR Project processing errors now show specific messages
