[Learner releases](#)

[Plan admin and team manager releases](#)

Learner releases

- After you take a skill assessment, the details page now displays the date when you can retake the assessment to track your improvement.

- Now you can get Skills content recommendations in your moment of need in Visual Studio Code when you use the [VS Code Extension](https://help.pluralsight.com/help/vs-code-extension) (available as a Preview release on the Visual Studio Marketplace).
- Want to stay up-to-date on what's changing with technology? Now you can listen to the discussion when you check out our [All Hands on Tech](https://www.pluralsight.com/resource-center/podcasts) podcast.
