

## Targets API

Tags: **Flow**

A target represents a user-defined goal for an individual or team. Goals are reflected in specific reports.

Who can use this?

Core

Plus

## Supported request

Get a list of targets:

```
https://flow.pluralsight.com/v3/customer/core/targets/
```

## Fields

Name	Type	Description
id	double	Unique identifier for a target.
key	string	Key assigned to target.
value	double	Value of the target.
member_id	double	Unique identifier for a member.
team_id	double	Unique identifier for a team.
apex_user	double	Filter-traversable object
apex_user_id	double	Unique identifier for the main user record for multiple user aliases that is associated with a target. Will replace apex_author_id March 2019.
apex_user_id__in	double	Multiple user_alias_ids in comma separated list.

## Example response

```
1 {
2   "count": 27,
3   "next": null,
4   "previous": null,
5   "results": [
6     {
7       "id": 28821,
8       "key": "first:tgt",
9       "value": 2,
