

Flow release: September 24, 2020

Tags: [Flow](#)

Features and major changes

- The report formerly known as **Retrospective** has been renamed **Trends**. No other changes to the report were made.

Resolved issues

- Fixed an issue with case sensitivity when merging users.
- Fixed an issue where users needed the **Manage Organization** and **Manage Integration** permission to edit Vendor URL templates. Now they only need the **Manage Integration** permission.
- Fixed an issue where users couldn't create a new rule for a Slack integration without the **Manage Integrations** permission.

If you need help, please email support@pluralsight.com for 24/7 assistance.
