Mobile and offline app releases

Learner releases

New learners on the Skills platform are now greeted with a “Getting started” section at the top of their homepage (opens in new tab). This introduces them to tools relevant to their subscription or team plan, such as paths, channels, hands-on learning, mobile apps, and guides.

As the learner engages with this content, it will transition into “Continue learning”.

Mobile and offline apps

Android

If you use the Pluralsight Android app and have channels that include channels sections, now you can see those sections in the app.
