Video courses	

Content type	Resources for you and your learners
Like to learn at your own pace? Tools like bookmarks, discussion boards, exercise files, notes, and learning checks can help your teams learn efficiently, retain knowledge, and measure new skills. And be sure to check out the following specialized video course types: • **Executive briefings:** Bite-sized courses focused on emerging technologies, industry trends, and security developments • **Play by plays:** A question-and-answer format that gives you the benefit of having two experts walk through a topic and break it down • **Conferences:** Some of the industry's biggest conferences, like Microsoft Azure + AI, Snowforce, Droidcon, and Pluralsight Live	• Learn about video courses • Learn about the video player • Use browse to explore paths, roles, video courses, and more
Interactive courses	
Looking for a way to practice while you learn? Interactive courses are excellent for beginning technologists or learners changing to a new area of knowledge. Team members can practice as they learn with hands-on coding challenges and guided feedback.	• See interactive courses in the Skills platform • Learn about interactive courses • Share video with learners to promote interactive courses • See overview and start a team trial
Labs	
Up for a challenge? Labs enable hands-on practice in a secure, temporary, and Pluralsight-provided environment. Each lab includes challenges with step-by-step instructions and access to pre-configured, live environments.	• See labs in the Skills platform • Learn about labs • See overview and request a demo
Google Cloud Qwiklabs	
Ready to gear up for your ACE exam or just get more proficient in Google Cloud? Through Skills' partnership with Google Cloud, you can get real cloud environment credentials and labs with Google Cloud self-paced labs powered by Qwiklabs.	• See Qwiklabs in the Skills platform (click on Google Cloud to filter) • Learn about Qwiklabs
Guides	

Content type	Resources for you and your learners
Looking to just solve a problem—not gain a whole new skill? You can search Guides, copy our code, and follow the steps to build something today in popular languages like C#, Javascript, React, Angular, SQL, and more.	• See guides in the Skills platform • Learn about guides
Certification preparation	
Time to master new skills while strengthening your resume? Skills provides certification preparation paths and practice exams through CyberVista (formerly Kaplan) for today's top certifications.	• See certification paths in the Skills platform • See roles built for certification prep • Learn about certification paths • Learn about certification practice exams • See overview and start a team trial
Q&A (Enterprise plans)	
Want to help your teams collaborate? Encourage your teams to help each other with Q&A. Individuals can ask questions on Q&A, and the platform matches them with peers in your organization who have the right expertise to help.	• See Q&A in the Skills platform • Learn about Q&A • Learn how to roll out Q&A to your team
