Reviewer fundamentals

Note: Reviewer fundamentals is only available for Flow Enterprise users.

Reviewer fundamentals shows team leads and managers how engineers and teams behave when they review code. Reviewer fundamentals provides the ability to run long-term trends and key metrics at the organization, team, and individual levels.

Use this report to compare Review metrics against configurable targets. These targets can be defined at the organization, team, and individual levels.

Review metrics include:

- Time to first comment
- Reaction time
- Involvement
- Influence
- Review coverage

Note: Reviewer fundamentals only shows data based on merged PRs.

Using Reviewer fundamentals
Team leads, managers, and executives can use Reviewer fundamentals to view code review trends over time.

Use the filters at the top of the report to select the repo, date range, team, and items you want to view in the report. View all users to get a sense of your organization's data as a whole.

The metrics tiles show you reaction time, involvement, influence, and review coverage metrics.

Select a metric to view more details in the bar graph.

The bar graph shows the average for each metric over the selected period. The graph shows trends if there are four or more complete weeks selected. A complete week is Monday through Sunday.

Viewing a team's Reviewer fundamentals

Below the Reviewer fundamentals graph shows the average metrics for each team. Click a team to see that team's nested teams and individual contributors.

A. Use the search bar to find a particular team.

B. Use the menu to filter teams by metrics and team name.

C. Use the Show rows filter to select the number of rows you want to view.
D. Use the **Sort** filter to sort teams alphabetically and sort metrics by volume.

Click a team to view that team’s Reviewer fundamentals metrics.
