

Flow release: March 11, 2021

Tags: [Flow](#)

Resolved issues

- Unable to use the action menu to update the number of rows visible on a page
- Unable to search for a repo when creating a Slack rule
- Error message after saving an email report

Miscellaneous updates and changes

- Now the repo picker modal will show you the total number of repos you can choose from, even if the names are still loading
- When you have multiple email reports, now the team name will be more visible so you can tell them apart

If you need help, please email support@pluralsight.com for 24/7 assistance.
