

## Flow release: July 9, 2021

---

Tags: [Flow](#)

### Features and major changes

- Now you can access the new version of the Work log report to help track your user's activity. This new version is faster and better highlights the work your teams are doing.

### Resolved issues

- Number of merge suggestions listed not matching the total displayed.
- Unable to search for ticket integration details.
- Too many results appearing when trying to search for a user on the Users page.
- Difference in data between the quartile chart and bar graph for Review Fundamentals on the Player Card.
- Total number of pull requests not consistent on the graph on Review Workflow.
