Overview

The Certification prep center is a starting point that helps you prepare for your certification journey by gathering all of your certification resources into one place.

[back to top](#)

Using the Certification prep center

The Certification prep center allows you to keep track of your preparation progress—including any progress you've made outside the prep center—on practice exams and prep courses.

Note: Practice exams are available on Premium subscriptions, and on Professional and Enterprise plans. Labs are available as an add-on on Starter, Professional and Enterprise plans. See [Subscription and plan comparison](#) to see what features are available for your plan.

Features

- Explore certifications by popularity, as well as by topics such as security, cloud, and IT ops
- See the top five certifications among your peers

- Track your preparation progress alongside other Pluralsight learners with the peer tracker

Note: Learners on Enterprise plans can see which exams their colleagues are pursuing on the peer tracker.
