## Leader releases

### Analytics

Now the **Skills inventory** page updates and renders even faster, bringing you customized reports and insights to your team's skill level and progression.

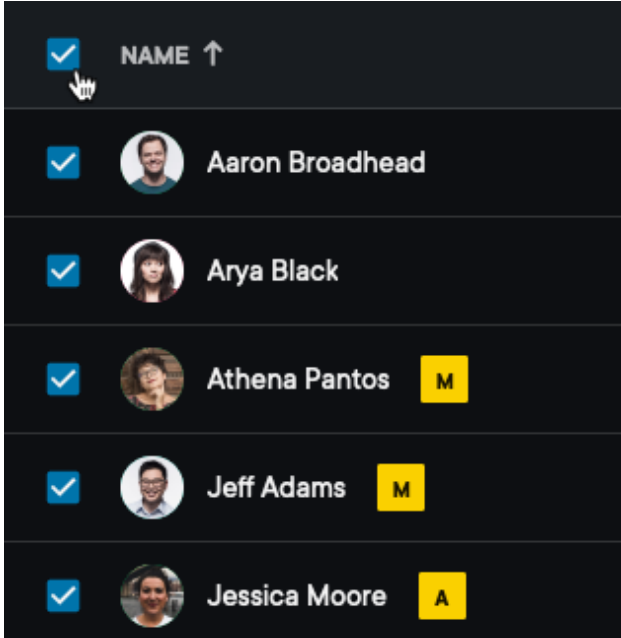

To get started:

1. Log in to your Pluralsight Skills account.
2. Click **Analytics** in the left navigation panel.
3. Click **Skills inventory** in the top center panel.

### People page

Now it's easier than ever to search and select users on the [Directory tab \(opens in new tab\)](#).

- The **Search users** box now searches across all columns, including the **License types** column. Search results are highlighted in the **Users table** for added clarity.
- The new **Select all** checkbox allows you to select or deselect all users, according to the current filter settings (search results). This allows you to quickly and more accurately select a group of users, while still offering custom selection.
