

## AWS account sign up

Tags: **ACG**

**Note:** Please visit [Amazon's free tier website \(opens in new tab\)](#) to get all the latest offerings

When [opening an AWS account \(opens in new tab\)](#) simply select a normal/standard account with the 'Basic' (zero cost) support level. You can upgrade to a paid support plan at any time. However, for the purpose of our training, it should not be necessary.

See [Amazon's pricing \(opens in new tab\)](#) to for the different support levels.

The Free Tier rebates will be applied by AWS automatically to any qualifying resources you have used

**Note:** the "Free Tier" rebate is not related to the support plans.

**Hint:** you may be asked about this on the exam.

Also, see [Manage your AWS costs](#).

---

If you need help, please email [Pluralsight Support \(opens email form\)](#) for 24/7 assistance.
