

Adding certifications to your profile

Tags: **ACC**

Congratulations on getting certified! Now it's time to share your achievement with the A Cloud Guru community.

Which industry certifications are supported?

All of them. That's right. With the revamped certification you can showcase the full breadth of your experience with no limitations on the certification that you want to show off.

How do I add certifications to my profile?

Follow the steps below on how to upload your certification(s).

1. [Edit your Profile \(opens in new tab\)](#).
2. Click **Add a Certificate** in the Industry Certifications section of your profile. This will populate the Upload Industry Certification form.

Industry Certifications

You've worked hard to get them, now show them off!

👁 PUBLIC Edit

+ Add a certificate

3. Fill out all required fields listed below.
 1. Select the certification provider
 2. Select the certification type
 3. Input the start and expiry date
 4. Input the certification ID
 5. Upload the certificate

Note: You may also choose to add an optional URL for your certification.

6. Click **Create certification** to save your certification.
4. If we had a certificate for uploading certifications, you would have just earned it.

How do I remove certifications from my profile?

Want to remove a certificate? No problem! We'll show you how in 3 easy steps.

1. Click **Edit** to the right side of the certificate you want removed. This will populate the Update Industry Certificate form.

Running Agile At Scale

Valid from 11/02/2020

Certification ID B37F3E0087D7

[View Certificate](#) [Credential URL](#)

[Edit](#)

2. Click **Delete Certificate** at the bottom of the Update Industry Certificate form.
3. Confirm deletion when prompted.

5. How do I update my certifications?

Need to modify the date or correct a typo? No problem! You can easily update your industry certificate following the steps below.

1. Click **Edit** to populate the Update Industry Certification form.
 2. Update your information.
 3. Once finished, click **Update Certificate** at the bottom of the form. You're all set!
6. You are now ready to show off those awesome certifications to the ACG community. We can't wait to see how many other certifications you get along your way to becoming a Guru!

If you need help, please email [Pluralsight Support \(opens email form\)](#) for 24/7 assistance.
