If we are having trouble locating the email address you provided, it may be because you're utilizing the "Private Relay" or "Hide My Email" feature on your Apple device. These features are designed to protect your real email address by creating an alias email for your Apple SSO. If you were unaware that you were using this feature, or don't know how to locate your alias email, we can help you find it.

### On an iPhone or iPad

1. Navigate to the **Settings** icon on your mobile Apple device.
2. Click your name at the top of the Settings screen.
3. Click **Password and Security**.
4. Click **Apps Using Apple ID**.
5. Find and click Select '**A Cloud Guru**'.
6. Under the 'Hide My Email' section, you'll see the private relay email that ACG received, eg: abcd1234@privaterelay.appleid.com.
