

Custom learning paths

Tags: **ACG**

Custom Learning Paths are course lists curated by admins or team managers to guide learners on their learning journey.

Note: Custom Learning Paths are exclusive to the Business Plus membership.

Create a custom learning path

To create a custom learning path:

1. Click **Learning paths** at the top of the business dashboard.
2. On the [learning paths page \(opens in new tab\)](#), click **Create path**.
3. Name your path and give it a description, then start adding learning content. Use the search bar to find and filter content by courses, hands-on labs, or practice exams.
4. Open the learning content that best fits your needs and click **Select All** to add it to your path.
5. Click **Save Draft**.

Note: Clicking **Publish** will make your path available to all users in your organization, so only do this once you're ready to share it.

6. Click **Exit Path Builder** to return to the learning paths page to continue adding content to your path.

Note: You'll need to open your path again on the learning paths page to resume building out your path.

If you want to preview your path, click the three-dot menu at the top of the path page and click **Preview learner path**.

Edit a custom learning path

Draft path

1. On the learning paths page, click the draft of your path to go to the search page, where you can add and remove content from your path.
2. Use the search bar to find and filter content by courses, hands-on labs, or practice exams.
3. Click the **delete** icon next to any learning material you want to remove.

Published path

1. On the learning paths page, click **Manage** next to your published path.
2. Click the dropdown **Actions** menu on your path page.
3. Click **Edit Path** to go to the search page, where you can add and remove content from your path. Use the search bar to find and filter content by courses, hands-on labs, or practice exams.
4. Click the **delete** icon next to any learning material you want to remove.

Publish a custom learning path

If you're finished developing your path, it's time to publish it:

1. Open the path, if it isn't already open.
2. Click **Publish**.
3. In the dialog box that appears, double-check that the title and description are accurate and make any edits if needed.
4. Click **Publish** at the top of the screen to publish without adding learners. Or, if you're ready to assign learners to your path, click **Publish and add users**.

Note: You can add learners at any time by clicking **Manage** next to your path on the learning paths page.

Assign learners to a custom learning path

Important: You can only add learners once you've published your path.

To add learners to your path:

1. On the learning paths page, click **Manage** next to your published path.
2. Click **Add Students**.
3. Use the search and filter features to find learners to add to your path.
4. Click all the names you want to add. A check mark appears beside each name.
5. Click **Add to Path**.

Once assigned, students will see the path on their dashboard and will also receive an email confirmation.
