How do I take the official AWS practice exam?

You buy a token for it in the same way as you schedule your real exams: By going to <https://www.aws.training/certification> (opens in new tab), clicking "Schedule an Exam" and following link after link to make your way into the Testing supplier system.

In there, you can buy a token which will be active on your account until you decide to start the practice exam. The time limit only starts counting down when you begin the practice exam, not when you buy the token.
