

Can I get CPE credits for your courses?

Tags: [ACG](#)

We have had a number of enquiries about our courses being endorsed for CPE credits and understand the value.

At this time, we have not established any formal relationship with professional bodies about CPE credits. However, some students have successfully applied for credits by providing; the curriculum, their progress, test scores along with the course record of completion (available by following [these instructions](#))

If you have a particular interest in using ACG training for CPE credits we would like to hear from you! Please [contact Support](#) with the subject 'Content - CPE Credits' to ensure it gets to the right person.

If you need help, please email [Pluralsight Support \(opens email form\)](#) for 24/7 assistance.
