## Email login (recommended)

Add a valid email address and password to create your unique ACG account. This gives you the flexibility to update your email address and/or reset your password in the future if needed.

**Note:** You'll need to verify your email address if you sign up using email and password login.

## Please Verify Your Email Address

Before you can continue using A Cloud Guru, we need you to verify your email address. Please click the **activation link** in the email we sent to the following email address:

[Log out of A Cloud Guru](#)

[back to top](#)

## SSO login

Use the email and password from an existing application/website to log into ACG. This process allows you to gain access to our platform without maintaining unique login credentials, eliminating the need for storing or having to remember your username and password to login.

**Important:** You won't be able to change your email or reset your password through ACG if you sign up using an SSO.
