

Gift purchases

Tags: **ACG**

We do not currently have a gift purchase option for memberships. However, you can purchase a membership on behalf of another user using one of the options below.

Purchasing an ACG membership as a gift

Option 1

1. Create an account using your email address and password.
2. Purchase the membership on your account.
3. Update your details to their email address on the account settings page.

Important: For good security practices, we suggest updating your password before updating the email address. Once the email address has been updated, a verification email will be sent to the recipient for them to confirm, and they'll then have access to the account.

Option 2

1. Have the recipient user create an account.
2. On the purchase screen, provide your payment details. This will start a 7-day trial, and then the membership fee will be processed at the end of the 7-day trial.
3. The recipient user can then update the payment information to their own details to remove yours for the future. Or, if they cancel after the billing, there won't be a renewal in a year or months time on your payment method.

If you need help, please email [Pluralsight Support \(opens email form\)](#) for 24/7 assistance.
