

## Flow release: July 14, 2023

---

Tags: [Flow](#)

### Resolved issues

- Repos appearing in both the available and imported tabs.
- Edit metrics dropdown selections not persisting on Team health insights.
- Not all deployments appearing on deployment lists.
- Unable to save deployment inclusion rule.
- Report date range changes when clicking on a team in Team health insights.
- Unable to view Trailing 12 months in the Proficiency report.
- Ticket log showing too many tickets after clicking on a link to view tickets in Investment Profile.
