### Learner releases

#### Skill IQ

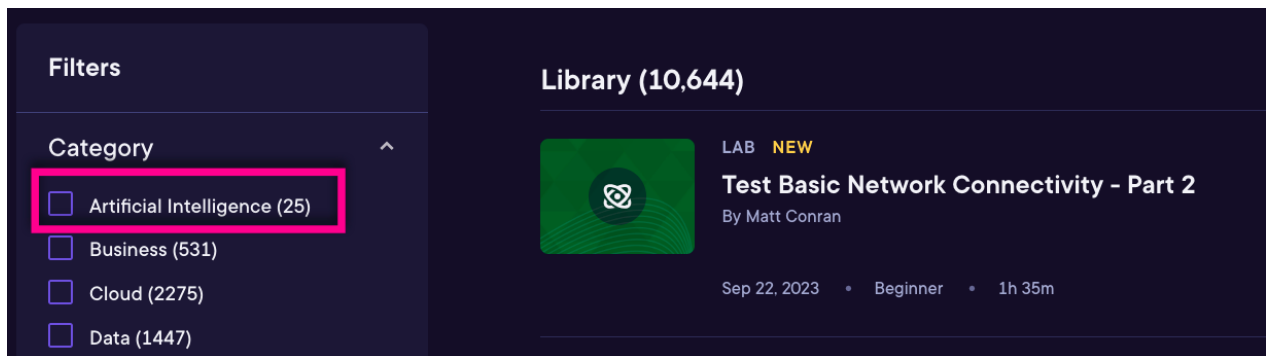

Now you have a new tab on the Skill IQ home page. The **Focused Learning** tab gathers information from Skill IQ summaries and puts them in one place. Now you can see your current Skill IQ level and your skill gaps. Each skill gap has links to specific course clips to help close the gap.

If you have a Skill IQ score in the Novice level, you'll be recommended a Path to guide you to your first steps of learning.

The screenshot shows the Skill IQ interface. At the top, the 'skill IQ' logo is displayed. Below it, a message encourages benchmarking tech skills and getting tailored learning recommendations. The interface has two tabs: 'Discover' and 'Focused Learning', with 'Focused Learning' being the active tab. A notification banner states: 'Recommendations older than 12 months will not be shown. The Focused Learning tab displays recommendations based on Skill IQ assessments taken within the past 12 months. If your Skill IQ assessment is more than 12 months old, we suggest retaking it to receive updated recommendations.' Below the notification, the 'CSS' skill is shown with a progress indicator for 'My level: Proficient Emerging'. Underneath, two skill gaps are listed with associated course clips: 'Set up CSS box models and display modes' (with clips for 'CSS Transition Fundamentals (25m)' and 'CSS Positioning (50m)') and 'Set up CSS' (with clips for 'Your First Day with CSS (59m)' and 'Bringing Content and Visual Together with CSS (29m)').

## Search/Browse

The Browse page category filter now has Artificial Intelligence listed as a top-level category.

The screenshot shows the Pluralsight interface. On the left is a 'Filters' sidebar with a 'Category' section. The 'Artificial Intelligence (25)' option is highlighted with a red box. Other categories listed are Business (531), Cloud (2275), and Data (1447). On the right, the 'Library (10,644)' section displays a course card for 'Test Basic Network Connectivity - Part 2' by Matt Conran. The card includes a green icon with a white robot head, a 'LAB NEW' badge, the date 'Sep 22, 2023', the difficulty level 'Beginner', and the duration '1h 35m'.
